

## City of Redmond Planning Commission May 14, 2003 Meeting Summary

### **Planning Commissioners in Attendance:**

Kim Allen, Kate Dunn, Charlie McCarthy, Sue Petitpas, Martin Snodgrass

### **Staff in Attendance:**

Lori Peckol, Cathy Beam, Geoffrey Beam, Terry Shirk, Redmond Planning Department

### **Business Conducted:**

Commission Chair Snodgrass called the meeting to order at 7:00 pm.

The Planning Commission excused Commissioners Ku and Bluechel. The Commission approved meeting minutes for April 16, April 30, and May 7.

Nancy Bainbridge Rogers spoke under items from the audience and provided a letter regarding the preliminary preferred growth strategy and options to date identified for consideration. Her comments concerned the options of encouraging residential development in the Overlake office area and changing the regional designation for the Overlake center from a Manufacturing/Industrial Center to an Urban Center. The Commission asked staff to include Ms. Rogers' comments on the issues summary for preliminary preferred growth strategy.

Chair Snodgrass opened the study session on Shoreline Master Program, DGA 02-015. In response to an earlier request from Ms. Rogers, Chair Snodgrass proposed that the Commission provide additional time for public comment on the Commission's preliminary recommendation by suspending the length of time for items from the audience at a meeting once the Commission has largely completed its study sessions. He emphasized that this time would be separate from the Commission's study session and deliberations. He suggested that the Commission decide on this proposal at their next meeting.

The Commission discussed issues and proposed updates for the following elements: Policy Revisions to the Comprehensive Plan and the Shoreline Environment. See the issues table for issues resolved and a summary of discussion points. Elements scheduled for discussion and preliminary recommendation for the May 21 meeting include the Shoreline Environment (continued from May 14), Public Access, and Historic and Cultural Use.

Chair Snodgrass opened the study session on Preliminary Preferred Growth Strategy, DGA 02-013. The Commission first reviewed a draft summary of their preferred future images for 2022, and endorsed the draft summary with two refinements. The Commission also completed initial review of options identified to date for addressing key policy questions and added several options under the Housing, Land Use and Downtown elements.

Ms. Shirk reported on the Housing Fair and Workshop held on May 12. The Commission reviewed the extended schedule.

The meeting was adjourned at 9:55 pm.
